# Ahmad Nursidik Dinar

I am a highly curious junior developer. As a college student, I have been involved in some projects on event Programming, and in some projects on assignments at college to make a program in any language. I also have some course experience in managing AWS Cloud tools and making the program use of JavaScript language. Currently, I serve as a college student at the University of Singaperbangsa Karawang on the faculty of Computer Science at Informatics Engineering

West Karawang, Karawang, West Java, Indonesia
